FUND MANAGER COMMENTARY

In May 2022, IDR Balanced Syariah Fund booked performance of -1.45%. Last month, global market posted a mixed month on month performance, generally with correction in the first half of the month due to fear on more hawkish tone from the Fed and rebound in the later half of the month due to expectation that the fear will not materialize as well as better development and expectation on China lockdown situation, China government policy to stabilize its economy, and talks on potential easing on trade tariff between US-China. Domestic market also saw similar pattern of correction and rebound with IDR3.5trn outflow in the last month.

In bond market, the IBPA Indonesia Government Sukuk Index Total Return weakened by 0.42% on monthly basis due to negative sentiment of the US Federal Reserve rate hike starting in early May. Meanwhile on domestic, BI is expected to hike its policy rate in late 3Q 2022.
